

Hooray for Herps!

Live Reptile & Amphibian Program

FREE!

Sat., Nov. 19 – 1 p.m.
Families & Adults

Walking through the tall grasses, suddenly a slithering body catches your eye and you jump back! The herp family has interesting members – some of which can be quite startling if you're not expecting them!

Join a Lee County Conservation naturalist to learn about our common and lesser known amphibians and reptiles in Iowa. You will even have the chance to explore a few of our leaping, jumping, slithering herp members up close and personal!
